

We had a few questions on how we came up with the gallons used per house hold.

### Well Production 2017

	ACFT (Acre feet)	gallons 1 acft = 325,851 gallons	daily use	
January	2.3	749,457.30	141	
February	1.6	521,361.60	108	
March	2.2	716,872.20	134	
April	2.4	782,042.40	152	
May	6.1	1,987,691.10	373	
June	8.9	2,900,073.90	562	
July	12.1	3,942,797.10	739	
August	12.4	4,040,552.40	758	
September	7.6	2,476,467.60	480	
October	7.1	2,313,542.10	434	
November	7.5	2,443,882.50	474	
December	6	1,955,106.00	367	
	76.2	24,829,846.20		<b>AVERAGE DAILY USE FOR YEAR 382</b>

### Well Production 2018

	ACFT	gallons 1 acft = 325,851 gallons	daily use
January	3	977,553.00	183
February	1	325,851.00	68

**Meter was being repaired in February**

Daily use takes gallons used per month and divides it by how many days in a month and then divides it by 172 users. We only have 179 hook ups and on average we have 7 users shut off.

**Just a reminder to those that have their payments come from their bank please double check our mailing address we have our mail forwarded but that will be ending soon. Our mailing address is PO Box 951, Frazier Park, Ca. 93225.**

**Thank you**
